```
regulatory T cell (CL:0000815) - 20304
                                                        CD4-positive, alpha-beta T cell (CL:0000624) - 14440
                                               CD8-positive, alpha-beta memory T cell (CL:0000909) - 1998
                                                        CD8-positive, alpha-beta T cell (CL:0000625) - 4764
                                                                   gamma-delta T cell (CL:0000798) - 421
                                                               mucosal invariant T cell (CL:0000940) - 340
                                                                                T cell (CL:0000084) - 7746
                                                                      mature NK T cell (CL:0000814) - 1526
                                                                        memory T cell (CL:0000813) - 2820
                                   naive thymus-derived CD8-positive, alpha-beta T cell (CL:0000900) - 6281
                                                                                                                                                                                                                                                                                                                                                                           - 80000
                                   naive thymus-derived CD4-positive, alpha-beta T cell (CL:0000895) - 31703
                              CD8-positive, alpha-beta memory T cell, CD45RO-positive (CL:0001203) - 2414
                                                                      alpha-beta T cell (CL:0000789) - 1949
               effector memory CD8-positive, alpha-beta T cell, terminally differentiated (CL:0001062) - 398
                                                                      exhausted T cell (CL:0011025) - 2347
                                                effector CD8-positive, alpha-beta T cell (CL:0001050) - 8772
                                                effector CD4-positive, alpha-beta T cell (CL:0001044) - 6908
                                                CD4-positive, alpha-beta memory T cell (CL:0000897) - 1434
                                                   CD4-positive, alpha-beta thymocyte (CL:0000810) - 6719
                                                   CD8-positive, alpha-beta thymocyte (CL:0000811) - 343
                                                            immature alpha-beta T cell (CL:0000790) - 121
                                                                                                                                                                                                                                                                                                                                                                           - 70000
                                                              mature alpha-beta T cell (CL:0000791) - 400
                                                                             stem cell (CL:0000034) -
                                                                   enterocyte of colon (CL:1000347) -
                                                                    myofibroblast cell (CL:0000186) -
                                                                   intestine goblet cell (CL:0019031) -
                                                                   colon epithelial cell (CL:0011108) -
                                   NKp44-positive group 3 innate lymphoid cell, human (CL:0001079) -
                                                                  enteroendocrine cell (CL:0000164) -
                                                                         motor neuron (CL:0000100) -
                                                                      mesodermal cell (CL:0000222) -
                                                                         reticular cell (CL:0000432) -
                                                                                                                                                                                                                                                                                                                                                                           - 60000
                                                                           animal cell (CL:0000548) -
                                                                 erythroid lineage cell (CL:0000764) -
                                                                                                                  21963
                                                                        memory B cell (CL:0000787) -
