```
CD4-positive, alpha-beta T cell (CL:0000624) - 4580
                                   CD4-positive, alpha-beta memory T cell (CL:0000897) - 1742
                                   CD8-positive, alpha-beta memory T cell (CL:0000909) - 1100
                     naive thymus-derived CD8-positive, alpha-beta T cell (CL:0000900) - 1042
                                                         gamma-delta T cell (CL:0000798) - 1120
                     naive thymus-derived CD4-positive, alpha-beta T cell (CL:0000895) - 4875
effector memory CD8-positive, alpha-beta T cell, terminally differentiated (CL:0001062) - 6684
                CD8-positive, alpha-beta memory T cell, CD45RO-positive (CL:0001203) - 2895
                                                    mucosal invariant T cell (CL:0000940) - 427
                                                            regulatory T cell (CL:0000815) - 435
                                                            alpha-beta T cell (CL:0000789) - 301
                                                            mature NK T cell (CL:0000814) - 678
                                             CD8-positive, alpha-beta T cell (CL:0000625) - 2079
                                       CD4-positive, alpha-beta thymocyte (CL:0000810) - 2275
                                       CD8-positive, alpha-beta thymocyte (CL:0000811) - 806
                                                 immature alpha-beta T cell (CL:0000790) - 49
                                                    mature alpha-beta T cell (CL:0000791) - 87
                                                                       T cell (CL:0000084) - 69
                                                                                                    3007
                                                             precursor B cell (CL:0000817) -
                                                                                                    645
                                                             immature B cell (CL:0000816) -
                                                                                                    3308
                                                                 naive B cell (CL:0000788) -
                                              class switched memory B cell (CL:0000972) -
                                                                                                     130
                                                                                                    665
                                                 unswitched memory B cell (CL:0000970) -
                                                                                                    995
                                                              memory B cell (CL:0000787) -
                                                                                                      8
                                                      germinal center B cell (CL:0000844) -
                                                                                                     179
                                                                plasmablast (CL:0000980) -
                                                                                                     76
                                                                       B cell (CL:0000236) -
                                                           natural killer cell (CL:0000623) -
                                                                                                          1102
                                                                  animal cell (CL:0000548) -
                                                                                                          821
                                        professional antigen presenting cell (CL:0000145) -
                                                        primordial germ cell (CL:0000670) -
                                                                 stromal cell (CL:0000499) -
                                                                                                                1384
                                                   CD14-positive monocyte (CL:0001054) -
                                                         classical monocyte (CL:0000860) -
                                                                                                                 683
                                                    non-classical monocyte (CL:0000875) -
                                                                                                                1418
                                                                   monocyte (CL:0000576) -
                                                                 granulocyte (CL:0000094) -
                                                                                                                      7586
