```
regulatory T cell (CL:0000815) - 20304
                                                           CD4-positive, alpha-beta T cell (CL:0000624) - 14438
                                                  CD8-positive, alpha-beta memory T cell (CL:0000909) - 1998
                                                           CD8-positive, alpha-beta T cell (CL:0000625) - 4763
                                                                      gamma-delta T cell (CL:0000798) - 421
                                                                  mucosal invariant T cell (CL:0000940) - 340
                                                                                   T cell (CL:0000084) - 7746
                                                                        mature NK T cell (CL:0000814) - 1526
                                                                          memory T cell (CL:0000813) - 2820
                                     naive thymus-derived CD8-positive, alpha-beta T cell (CL:0000900) - 6281
                                     naive thymus-derived CD4-positive, alpha-beta T cell (CL:0000895) - 31703
                                 CD8-positive, alpha-beta memory T cell, CD45RO-positive (CL:0001203) - 2414
                                                                         alpha-beta T cell (CL:0000789) - 1949
                  effector memory CD8-positive, alpha-beta T cell, terminally differentiated (CL:0001062) - 398
                                                                         exhausted T cell (CL:0011025) - 2347
                                                   effector CD8-positive, alpha-beta T cell (CL:0001050) - 8772
                                                   effector CD4-positive, alpha-beta T cell (CL:0001044) - 6908
                                                  CD4-positive, alpha-beta memory T cell (CL:0000897) - 1434
                                                      CD4-positive, alpha-beta thymocyte (CL:0000810) - 6719
                                                      CD8-positive, alpha-beta thymocyte (CL:0000811) - 343
                                                              immature alpha-beta T cell (CL:0000790) - 121
                                                                 mature alpha-beta T cell (CL:0000791) - 400
                                                                                stem cell (CL:0000034) -
                                                                      enterocyte of colon (CL:1000347) -
                                                                       myofibroblast cell (CL:0000186) -
                                                                     intestine goblet cell (CL:0019031) -
                                                                     colon epithelial cell (CL:0011108) -
                                      NKp44-positive group 3 innate lymphoid cell, human (CL:0001079) -
                                                                     enteroendocrine cell (CL:0000164) -
                                                                           motor neuron (CL:0000100) -
                                                                         mesodermal cell (CL:0000222) -
                                                                                                                456
                                                                              animal cell (CL:0000548) -
                                                                    erythroid lineage cell (CL:0000764) -
                                                                                                                     21960
                                                                          memory B cell (CL:0000787) -
                                                                             naive B cell (CL:0000788) -
                                                                                                                     8139
                                                                                                                     25330
                                                                                   B cell (CL:0000236) -
                                                                         immature B cell (CL:0000816) -
                                                                                                                      519
                                                                                                                      233
                                                                         precursor B cell (CL:0000817) -
                                                                                                                      1828
                                                                          follicular B cell (CL:0000843) -
                                                                                                                      347
                                                                   germinal center B cell (CL:0000844) -
                                                                             plasmablast (CL:0000980) -
                                                                                                                      543
                                                                        natural killer cell (CL:0000623)
                                                                                                                             700
                                                                                                                             851
                                                             group 3 innate lymphoid cell (CL:0001071) -
                                                                                                                             142
  CD34-positive, CD56-positive, CD117-positive common innate lymphoid precursor, human (CL:0001074) -
                                                             group 2 innate lymphoid cell (CL:0001069) -
                                                                                                                            2794
                                                                     innate lymphoid cell (CL:0001065) -
                                                                                                                            3590
                                                                              plasma cell (CL:0000786) -
                                                                                                                             729
                                                                             lymphocyte (CL:0000542) -
Original
